

## POLICY TO PREVENT GLOBAL WARMING

*In order to facilitate our "Business Objectives", it is Evenort Ltd.'s intention to implement, maintain and continually improve an Integrated Management System which meets the requirements of BS EN ISO 14001 : 2015.*

*The group has now decided to augment this by publishing a policy to prevent global warming through technological change and investment decisions by implementing and adhering to the following strategies.*

- *Any sustainability project will be given priority over any other capital investment with a similar return on investment.*
- *Any sustainability project brought to the attention of the Evenort LTD group board will be logged in our "MAP" database for review, and those with a return of 4 years or less will be prioritised.*
- *Decisions on such projects will be completed within 3 months of appearing on the "MAP"*
- *The Directors undertake to use our personal and corporate presence to influence policy makers to legislate the requirement for such a policy for all businesses in the SME sector.*
- *Current or potential supplier input is welcomed.*

*The Board of Directors encourage employees and stakeholders to contact us on 01909 569361 or by email at [sustainability@evenort.co.uk](mailto:sustainability@evenort.co.uk) to assist with the discreet implementation of this policy where necessary.*
